

Haryana City Gas Distribution (Bhiwadi) Limited

Become a CNG Dealer

CNG – CNG is natural gas that is compressed to high pressures so that large volumes can be stored in small space like CNG Cylinders to enhance Storage capacity. CNG is used as a fuel in automobiles. Natural Gas is compressed & dispensed as an automobile fuel to onboard CNG cylinders of vehicles at a pressure of 200 bar(g). CNG is substantially economical and Eco- friendly than the conventional liquid auto fuel such as diesel & petrol.

HCGDBL is a company authorized by PNGRB supplying CNG through CNG stations in Bhiwadi. Considering the increased demand of CNG by the commuters and to provide better service to public, HCGDBL is planning to set up new CNG stations in the areas of Bhiwadi, Khushkhera, Tapukara and other potential areas within CGD Bhiwadi Geographical Area.
